

Short Information

CRnT

CAUSAL REGULATIVE NEURAL TECHNIQUE

new revolutionary causative healing method

- CRnT treats the causes of illness and is a new revolutionary medical healing method for the successful treatment of illness, - even those which are “chronic” or “problem” illnesses.
- CRnT works from a unique point of view: precise detecting and selective switching off the disturbances in the autonomic nervous system eliminate the causes of illness and therefore lead to causative and final healing.
- CRnT is an injection therapy using precise and most differentiated injection techniques from head to foot to the disturbed areas of the autonomic nervous system by this eliminating the causes of illness and the illness itself.
- CRnT heals the causes of chronic or other problem and long- term illnesses like migraines, illnesses of the neck, back, joints etc. and illnesses of all fields of conventional medicine.
- CRnT has the capacity for healing even the worst forms of chronic and problem illnesses within shortest time, i.e. 2 - 4 weeks, without any repeated treatment.
- CRnT works through a scientifically proven biochemical repolarization of individual localized energy - disturbed areas in the autonomic nervous system, which are the causes of illness.
- CRnT as treating illnesses causatively, these are often illnesses that have become “chronic” under application of mere symptomatic therapies.
-
- CRnT heals even after many years of illness without any risk or side effects and effects the set up of a long-term best-coordinated autonomic nervous system as a basis for healthiness and protection against new illness.
